

BEEF UP YOUR PROFITS WITH SOME LINE ONE INFLUENCE

ERVIE HEREFORDS & AIRIES ABERDEEN-ANGUS

2024 SPRING BULL SALE

Thursday 8th February at the farm - 1:00pm start

“Two commercially run herds where production comes first.”

Excellent prospects for both commercial & pedigree production.

- *Unique L1 Hereford genetics in the UK.*
- *Includes many dams and sisters of our recent top selling bulls.*
- *Selling singles or groups any size. Buy one, buy 10, or buy the herd. A superb opportunity awaits you.*
- *Over 50 years of Ervie breeding put on show. The chance to buy our best.*
- *Ervie females are renowned for their quality & milk.*
- *N.B. The cattle will not be mixed with other cattle during transport or at the mart and are being sold in the small ring with its own set of pens.*

We specialise in selling naturally reared bulls with
problem-free, high maternal genetics.

Established 1969 and selling over 80 bulls per year
to repeat suckler & dairy customers.

A BREEDING PROGRAM TRIED & TESTED!!

WELCOME to our 15th consecutive on-farm Spring Bull Sale.

THANK YOU FOR YOUR INTEREST. As a family, we appreciate your support and understand that to earn it our bulls must produce calves that will grow and leave good profit. We are confident that this crop of bulls won't disappoint. We've never had such a thick-fleshed and even group.

LINE ONE INFLUENCE. This year is our 13th crop of bulls with Line One influence, and as before they are true "red-meat from grass" bulls. Consistency is getting stronger. These bulls will produce uniform crops of valuable calves. Credit for the uniform, problem-free cowherd we have today is due to the imported Line One Hereford genetics we have been using since 2006.

COMBATING DIFFICULT TIMES. As livestock farmers, our businesses are still battling huge pressure from high costs, with fertiliser, feed, fuel, electricity & equipment, along with every household purchase our families make daily. Efficient, low-cost production is one way to meet these challenges and the type of cattle we are producing thrive on a system with paired-back costs. I firmly believe that no other cattle breed will convert grass to beef more efficiently than a Hereford or it's crosses, or, thrive in more basic conditions. Our breeding program includes selection for improved udder & teat conformation in the cow herd and good scrotal size for our bulls. Both these traits are good for the efficiency of all our herds by reducing replacement labour & vet costs and by increasing herd output. Our average scrotal measurements are increasing slightly year on year.

MODERN METHODS. We will be accepting online bids as well as the bids from the ringside again this year. Buying over the internet may not be for everyone, but I have confidence, with the videos taken by our four daughters to present the bulls truthfully, plus the relevant information we provide in the catalogue,

Ellen, Olivia, John, Alexandra, Kristina & Rosie

(including actual birth weight, dam's udder/teat score, scrotal measurement and a meaningful table of EBV's), busy farmers can buy online with confidence. Add to this the pre-sale veterinary health & fertility check and Johnes blood test, we are confident bulls bought online will not disappoint.

HOW WE RAISE THEM. Our calves are reared and weaned without creep-feed in order to measure herd's true maternal performance from grass. After weaning, the bulls and heifers are reared in their full groups, with no preferential feeding. This allows for recording and assessment of true natural performance. We ultrasound the entire bull and heifer crop each summer for muscle depth and back fat to provide meaningful EBV's on all the bulls. Dam's udder & teat assessment scores are supplied for herd owners looking to improve these important maternal traits.

The bulls have been outwintered at grass with a silage feed trailer provided and since October fed 3kg/head/day of a 16% CP blend.

Please study the merit of each bull, using your eye and the data provided to help you choose the bull with the best genetics and type to suit your herd. Ask me for any extra information not already provided. Regarding our calving ease figures, as a herd, we have no extreme birth weights. Other than breach calves, it is rare for us to assist at birth.

We hope you find your next bull here today!

Best regards,

John, Alexandra, Rosie, Ellen, Olivia and Kristina

ERVIE HEREFORDS & AIRIES ANGUS

2024 SPRING BULL SALE

**THURSDAY 8TH FEBRUARY
AT THE FARM**

Auction starts at 1:00pm

THE BEST OF BOTH WORLDS:

• • •

Dual ringside & online bidding with live auction-ring webcam plus videos of the bulls over the internet

• • •

Auctioneer is Harry Begg, Dumfries. T: 07713 569593

• • •

Bulls penned for inspection from 10:30am on sale day

• • •

Lunch & refreshments at noon

SALE DAY PHONES

The LIVESTOCK LINK

How to bid Online!

Where possible and to avoid disappointment, please register to bid at least 24 hours in advance of the sale. This gives you time to familiarise yourself with the bidding process. We shall endeavour to process short notice registrations during the sale, but rush is not conducive to success.

You can register to watch or bid online through The Livestock Link by following these instructions.

- ▶ Visit our website, www.thelivestocklink.com
- ▶ Click the “Auctions” tab
- ▶ Click on “Click Here to Register”
- ▶ Enter your e-mail address and password and fill out all your contact information
- ▶ Fill out your Banking Information. If you are only viewing the sale and do not wish to bid, this information can be left blank.
- ▶ Check the checkbox at the bottom of the page that says “I’m not a robot” to prove you are a real person
- ▶ Click “Register” at the bottom of the page
- ▶ You will receive an email with a link to activate your account
- ▶ Contact Jared at 001.605.920.9261 or email at jared@blackhills.com for help or with any questions.

You will receive an email when you are approved for bidding. All applications will be reviewed and processed promptly. You will receive a bidder number only after you have made a purchase in the sale, and that number will only be used at that sale. When the sale is completed, When the auction is completed, we will confirm the online sales with each buyer by email. Payment on invoice after the sale to be made to C & D Auctions with 25% downpayment and remainder due before shipment in April.

To use our service, you must have access to High-Speed Internet. Those with unreliable internet speeds may consider using our proxy bid service.

Questions?

Contact Jared at 001.605.920.9261 or Support at 001605 920-9261.

CONTACTS FOR REGISTRATION AND BIDDING ASSISTANCE:

Ellen	tel: 07841 033748	email: ellenginadouglas@outlook.com
Olivia	tel: 07311 297272	email: olivia.doug3@gmail.com
Kristina	tel: 07759 090000	email: kikidouglas28@gmail.com
Rosie	tel: 001.605 210-3319	email: rosiedouglas2@gmail.com

For registration instruction and general sale information visit:
www.ervieherefords.co.uk

SALE INFORMATION

- ▶ Again, this year you can follow our bull sale on-line with live streaming of the sale as the bulls go through, as well as videos of each bull taken in the coral. On-line bidding will be real-time with auctioneer taking both internet bids and sale ring bids.
- ▶ Registration to bid online is straightforward and should be completed preferably by the 7th February. **If you have registered with The Livestock Link for a previous sale, it is unnecessary to re-register. Simply log in with your original username and password.**
- ▶ Just contact any of us for help if you have difficulty in registering.

If you want to find out more information about our online sale hosts, the **American Livestock Link**, visit their website: www.thelivestocklink.com

Our auctioneer is **Harry Begg**, Dumfries. Tel: **07713 569593**

TERMS AND CONDITIONS:

Please contact us if you have any questions or concerns pertaining to these sale terms and conditions.

PAYMENT:

All sales are cash and in pounds sterling. The auction will be conducted by Harry Begg (Tel. 0771 356 9593) from Dumfries Mart and payment to be made to him at close of sale unless by prior agreement. Online buyers will be invoiced by email. Bulls being left at Mains of Airies require 25% paid on sale day and the remainder cleared with the auctioneer one week before uplift by mid-April.

TRANSPORTATION:

Bulls can be picked up any time after payment has been made. All transportation expenses to be the responsibility of the buyer.

We will endeavour to assist with transport to a convenient meeting point within the UK mainland.

ANNOUNCEMENTS:

Bulls can stay at Mains of Airies up to mid-April and will be cared for by us but at the buyer's risk. Any death or injury after the animal is sold is at the buyer's risk. **Insurance is advised.**

LIABILITY:

Anyone attending the farm to view the stock does so at their own risk.

LOT WITHDRAWAL:

We reserve the right to withdraw any animal from the sale.

HEALTH & BREEDING GUARANTEE:

Latest routine four-yearly clear **Tuberculosis Test** completed **24th December 2021.**

The entire adult herd is **Johnes tested** along with the TB test every 4 years as cost-effective surveillance to ensure there is no Johnes development within the herd. **The sale bulls for 2024 were blood-tested on 17/01/2024 and all tested Negative.**

The herd is BVD accredited. The breeding herd has been on a strict Lepto & BVD vaccination programme since 2001, with IBR vaccination since 2017. All the sale bulls require their booster vaccines by mid July.

Our customers value our robust disease biosecurity, the high health status and remoteness of our closed herd.

The bulls had a fertility examination by our vet 17/01/2024 and all are normal and fertile. (Scrotal measurements printed in catalogue.)

BULL WARRANTY:

All bulls sold are warranted stock getters, fertile and capable of natural service.

Any claim of bull infertility must be made after 1 month from the date of movement and within 9 months from the date of the sale and must be backed by a written statement from a practising veterinary surgeon confirming the bull to be infertile. The vet must confirm that the infertility is not due to either injury of infection after the sale.

Any bull proving to be infertile shall either be replaced to the satisfaction of the buyer or refunded the entire purchase price.

The advantage of high performing, line bred cattle is of course, increased predictability, uniformity, as well as the hybrid vigour generated in their progeny by an outcross either within breed or between breeds.

A SHORT BACKGROUND TO LINE ONE HEREFORD CATTLE

In **Montana** during the early 1800's, 55,000 acres were set aside as Fort Keogh, an Army Outpost, later a remount facility for breeding Cavalry horses and finally as an agriculture research service to assist the agricultural industry in producing food supply. It was at this Miles City station in 1934 that a selection program commenced and the development of inbreeding several different lines with selection emphasis on yearling weights. Of all the different lines developed at Miles City, the most prominent to date has been the **Line Ones**. The foundation cows for the **Line Ones** traced back to stock purchased in 1926 from George M. Miles. The bulls used in the development of the line were half-brothers, Advance Domino 20 and Advance Domino 54, purchased in Colorado. These two foundation sires were strong in Prince Domino blood. Although the **Line One** cattle were developed at the Miles City station and they have remained a prime source of seedstock, several other breeders drew heavily on **Line One** sires starting in the 1940's, and these breeders became suppliers of the **Line One** seedstock in the early 1970's.

Advance Domino 20

Advance Domino 54

AIRIES ABERDEEN-ANGUS Est. 2000

Our interest in Aberdeen Angus cattle was pricked during our visit to the World Hereford Conference in Colorado, USA in 1996. We were touring Hereford ranches through the mid-west states ahead of the conference and were enthralled by the number and quality of commercial Hereford x Angus cattle we were seeing on the tour. – “the Black Baldie”

Needless to say, I returned home and bought my first Angus bull, “Lord Jim 3rd of Priestland”, for use on my Hereford heifers and a proportion of the cows. We used that bull for Black Baldie production until he was 13 yrs old and I am indebted to Sam McCollum for steering me towards him when I was making my choice for my crossbreeding purpose. To this day I have not deviated from using this hardy, no nonsense, low input, problem free type of Aberdeen Angus.

I never intended breeding registered Angus, but 2 years later I went over to a breeding production sale hosted by Sam McCollum and returned home the owner of a very smart Angus heifer named “Sylvia 4th of Priestland.”

Since joining the AA Society in 2000, I have bred Sylvia and her and her descendants to various Angus bulls, always to produce bulls for my Black Baldie production. Whilst visiting the Denver Stock Show in Colorado, USA in 2005 I admired the quality of the ranch-raised Aberdeen Angus cattle on show. Since then, we have used a few US Angus bulls through AI and extended our Angus cow numbers to around twenty-five. We are back to using natural service again and our current stock bulls have US genetics behind them.

SIRES

Ervie RL1 Achiever 151966N

has made a large contribution to our herd, mainly through use on daughters of our successful 1151 sire. He has consistently raised our yearling weights and also passes on his upstanding style and character.

Ervie L1 Achiever 172353

Well constructed sire with length of body, smooth neck & shoulder. Left beautiful daughters carrying his attributes.

Fordel Earl Astrix U299

was bought mainly to follow on from two years inseminating with SAV Solid Gold. He has done everything we wanted and is proving to be a great herd sire for us. His calves are born easily unassisted and grow quickly. They are the type we like. His first daughters are calved and make fine cows.

SIRES

Ervie L1 Achiever 182523 is an upstanding bull with good conformation and character which he has passed onto his sons in this sale.

Ervie L1 Achiever 182491 is a bull of tremendous stature and is attractive and quiet natured. He is deep bodied, thick-topped and extremely easy fleshing type, and resembles very much the sire of his dam, L1 Achiever 91150.

Ervie L1 Achiever 172318 was used for a couple of seasons before being sold for use on Charolais heifers. He was a high maternal type sire, active and free-moving, with clean lines and good muscle pattern. Easy calving with good growth.

SIRES

Ervie L1 Achiever 192605 was a much admired young sire we lost prematurely after only his first season. Tremendous breed character, correctness and ease of fleshing.

Ervie L1 Achiever 192633 is senior herd sire at Towford and was our high-seller in 2021. Very good son of RL1 151973 and has bred well at Towford

Ervie L1 Achiever 192692 is an attractive young sire used one season on heifers before being sold to a good friend for use on dairy. We should have used him longer.

SIRES

HW Diablo W206

Very attractive bull with high maternal genetics who we bought as a yearling in 2021 for use on mainly daughters of Earl Astrix but used across the herd this past season. Does everything we wanted – easy calving, growthy attractive calves.

THE TOWFORD BULLS

Some of the bulls catalogued here are registered with the Towford prefix. In 2020 we sold a quantity of in-calf cows to Alan Anderson & family, Towford Farm, Jedburgh. Alan farms an upland farm with a good dry grassy hill on which he outwinters the Hereford cows. After visiting Towford a couple of times, we decided that the herd health status and biosecurity are on a par with ours and Alan's herd management and method of rearing calves are almost identical to our own. Towford herd genetics are pure "Ervie" bloodlines and it we can easily depend on the genetics.

After considering all of this, we bought & reared his 2021 crop of bull calves at weaning. (All the calves were in utero pregnancies when Alan bought his cows from us in 2020.) We have subsequently purchased the 2022 & 2023 crops of bull calves to develop for our sales.

RAISING PROFITABLE, QUALITY, NATURAL BEEF

Whether your herd is beef suckler or dairy, using Ervie Line One Hereford genetics can reduce herd costs & improve herd profit.

The advantages of high performing, line-bred cattle are increased predictability, uniformity, as well as the hybrid vigour generated in their progeny by an outcross either within breed or between breeds

OUR MESSAGE TO POTENTIAL SUCKLER HERD BULL CUSTOMERS:

Ervie bulls are high in maternal traits, line-bred and consistent. The best ervie bulls will exploit fully the hybrid vigour from your herd to enhance profit.

THESE ARE YOUR ADVANTAGES!

- ▶ Improved female replacement type
- ▶ Improved calving ease
- ▶ Improved udders & teats
- ▶ Improved cow fertility
- ▶ Improved calf uniformity
- ▶ Improved feed efficiency
- ▶ Improved temperament
- ▶ Improved cow longevity

OUR STOCK BULLS ARE SELECTED FOR:

- ▶ High natural performance to improve yearling growth
- ▶ Medium or light birth weights to maintain calving ease
- ▶ Good testicles to improve herd fertility
- ▶ Good or excellent uddered dams to improve udders type
- ▶ Good milking dams to maintain milking ability
- ▶ Structurally sound to maintain good beef conformation
- ▶ Genetically balanced for profit-affecting traits

OUR MESSAGE TO POTENTIAL DAIRY HERD BULL CUSTOMERS:

OUR DAIRY CUSTOMERS DEMAND SOUND FEET, HIGH FERTILITY & MODERATE BIRTHWEIGHTS. ERVIE L1 HEREFORD BULLS FIT THE BILL FOR THESE TRAITS PLUS EXTRAS!

Choose light-birthweight Ervie L1 Hereford bulls to reduce costs & enhance herd profit:

THESE ARE YOUR ADVANTAGES!

- ▶ Uncomplicated births allow your cows to hit their true yield potential.
- ▶ Uncomplicated births result in vigorous & healthy calves.
- ▶ Uncomplicated births result in better conception rates.
- ▶ Uncomplicated births result in lower vet bills.
- ▶ Overall reduced rearing costs.
- ▶ Nothing converts grass to beef like a true Hereford

GAIN THE ADVANTAGE ...USE ERVIE LINE ONE
