## **WELCOME, and thank you for your interest.**

Alexandra and I have decided that now is as good a time as any to “pass the reins” to our four daughters, Rosie, Ellen, Olivia and Kristina. ERVIE HEREFORDS have existed now for over 55 years and our AIRIES ABERDEEN ANGUS for over 25 years. Our girls have grown up on our farm amongst the cattle and sheep and have developed their own knowledge & understanding of the industry. They will retain the 2024 & 2025 heifers along with a very few Hereford cows in order to maintain cow families and continue the herds.

I believe this sale is a tremendous representation of our milky & productive type of breeding females. These cows have longevity and most have yet to reach their prime breeding years and will be a tremendous investment, whether for producing commercial or pedigree calves.

The cows from both our herds offer an opportunity for you to obtain cattle with genetics aimed to produce profit in today’s beef industry in the UK. They are all bred to be efficient converters of grass and to perform outdoors, problem free. We regard every cow offered to be worthy of her place in our herd and whether you purchase the top priced, or the bottom priced, we expect each cow to do a great job and establish themselves as a valuable addition to your herd.

***We both wish you the best of luck,***

**John & Alexandra**

**ERVIE HEREFORDS (est. 1969)** have existed now for over 55 years and has played a major role in the lives of all our family.

We are quietly proud of the consistency and quality of our cow herd and believe they will do a great job for you whatever bull you breed them to. Our use of line breeding will allow you to maximise the hybrid vigour in their calves.

Many of the cows descend from original foundation females in the herd. Over the years we have added good families from other established UK Hereford herds, but since 2005 we have concentrated on introducing Hereford Line One genetics from the USA, ensuring a robust herd health and biosecurity policy and a totally closed herd.

We have developed our herd by selecting on natural performance, fertility, milk, calving ease, fleshing ability, conformation and overall soundness. We raise our cattle as a commercial enterprise with emphasis on low input and low cost of production. By using only our best straight Line One bulls and applying a planned line breeding programme across the entire Ervie herd, we have developed our own “Ervie” cow type and have discovered a programme that is simple and effective for us and our valued commercial bull customers.

***The advantage of high performing, line bred cattle is of course, increased predictability, uniformity, as well as the hybrid vigour generated in their progeny by an outcross either within breed or between breeds.***

**AIRIES ABERDEEN ANGUS** had its first pedigree Angus calf registration in 2000, and that was the start. Initially our sole interest was in breeding good F1 Black Baldie calves from our established Hereford herd, and to have our own supply of young Angus bulls for use on heifers.

The Airies herd is quite unique for the fact that since the purchase of Sylvia 4th of Priestland, we have not purchased another Aberdeen Angus female. Every cow in the herd traces back to her. Our breeding objectives are to breed a moderate size of cow who will produce a small calf unassisted. The bulls we produce must be suitable for use on either beef or dairy heifers. We do not tolerate high birth weights. The Angus herd we have developed, crosses perfectly with our Herefords and produces valuable and efficient Black Baldie steers and heifers to meet the requirements of the quality UK beef market.

**BREEDING FOR PROFIT  
FOR OVER 50 YEARS**

# ERVIE HEREFORDS & AIRIES ANGUS

AT UA AUCTIONS, STIRLING,  
SATURDAY 7TH MARCH 2026

Auctioneer is Derek Anderson

### TERMS AND CONDITIONS:

Please contact us if you have any questions or concerns pertaining to these sale terms and conditions.

**CONDITIONS OF SALE:** The sale is held at UA Auctions, Stirling subject to their usual dispersal sale conditions.

**LOT WITHDRAWAL:** We reserve the right to withdraw any animal from the sale.

**HERD HEALTH:** Latest routine four-yearly clear **Tuberculosis Test** completed 4th December 2025.

The entire adult herd is **Johnes tested** along with the TB test every 4 years as cost-effective surveillance to ensure there is no Johnes development within the herd.

The herd is BVD accredited. The breeding herd has been on a strict Lepto & BVD vaccination programme since 2001, with IBR vaccination since 2017. Booster vaccinations due in July.

Our customers value our robust disease biosecurity, the high health status and remoteness of our closed herd.

# A SHORT BACKGROUND TO LINE ONE HEREFORD CATTLE

In **Montana** during the early 1800's, 55,000 acres were set aside as Fort Keogh, an Army Outpost, later a remount facility for breeding Cavalry horses and finally as an agriculture research service to assist the agricultural industry in producing food supply. It was at this Miles City station in 1934 that a selection program commenced and the development of inbreeding several different lines with selection emphasis on yearling weights. Of all the different lines developed at Miles City, the most prominent to date has been the **Line Ones**. The foundation cows for the **Line Ones** traced back to stock purchased in 1926 from George M. Miles. The bulls used in the development of the line were half-brothers, Advance Domino 20 and Advance Domino 54, purchased in Colorado. These two foundation sires were strong in Prince Domino blood. Although the **Line One** cattle were developed at the Miles City station and they have remained a prime source of seedstock, several other breeders drew heavily on **Line One** sires starting in the 1940's, and these breeders became suppliers of the **Line One** seedstock in the early 1970's.

---

## AIRIES ABERDEEN-ANGUS

Est. 2000

We joined the AA Society in 2000 after purchasing a very smart Angus heifer named "Sylvia 4th of Priestland. Over the ensuing years bred Sylvia and her descendants to good Angus bulls, always with the intention of having bulls for my Black Baldie production. Whilst visiting the Denver Stock Show in Colorado, USA in 2005 with the purpose of buying Line One Hereford embryos, I viewed the Aberdeen Angus cattle there and recognised good high maternal traits in those ranch-raised Aberdeen Angus. Since then, we have used a few US Angus bulls through AI and extended our Angus cow numbers to around twenty. We are back to using natural service again and the bulls we buy have US genetics behind them and are the good maternal type for our breeding purposes.

The Airies herd is quite unique for the fact that since the purchase of Sylvia 4th of Priestland, we have not purchased another Aberdeen Angus female. Every cow in the herd traces back to her. Our breeding objectives are to breed a moderate size of cow who will produce a small calf unassisted. The bulls we produce must be suitable for use on either beef or dairy heifers. We do not tolerate high birth weights. The Angus herd we have developed, crosses perfectly with our Herefords and produces valuable and efficient Black Baldie steers and heifers to meet the requirements of the quality UK beef market.

# ERVIE HEREFORD COW FAMILIES

## TRIBE 1 FAMILIES

**BEAUTY.** Brockloch Beauty 17th purchased from Willie Barclay, East Brockloch, Ayrshire in 1994. This family produced our £4500 sale-topping bull in 2015. Solid cattle.

**BARBARA.** Barncleugh Barbara 5th purchased at Edinburgh in 1977 from Kenneth Kelly. This important family also descended from Haven family.

**CAROL LILY.** Onguten Carol Lily 39th bought at their herd dispersal in 1997 and has provided us with a top family line since. Full of quality. Regularly producing many of our high prices at our annual spring bull sale.

**L1 ACHIEVEMENT I FLUSH.** Result of an embryo flush from a Cooper dam and a Holden sire in 2008. We've never had many, but the females have been important to us for producing herd sires.

**L1 ACHIEVEMENT N FLUSH.** Result of an embryo flush from Beran Bros. in Kansas using a Holden dam and a Holden sire in 2015. Recent Ervie sires RL1 Achiever 151966N & RL1 Achiever 151973N were from this flush.

**L1 ACHIEVEMENT G FLUSH.** Result of an embryo flush from a Holden dam and a Holden sire in 2008. This family has had a good share of top-end prices at our annual spring bull sales

## TRIBE 2 FAMILIES

**LISETTE.** Findowrie Lisette 5th was a heifer full of Haven bloodlines purchased in Edinburgh 1972 and she established one of the strongest and best families in our herd. This family produced our top two sale prices at £7000 & £8200 in 2018 and many other high end bull prices for us.

**LAURA.** Weswood Laura 390th was a tremendous daughter of Ervie King Kong we purchased from Clive Davies in 2003. This has become a tremendously

important family to us and produced our £7200 sale-topper in 2016. Bulls from the Lauras are regular top-end prices for us.

**GYPSY.** Dovemount Gypsy B22, another Ervie King Kong daughter was purchased in 2006 from George Thorley. The family line goes right back to Marlow breeding and has become a particularly important family to us. Fantastic female line.

**L1 ACHIEVEMENT M FLUSH.** Result of an embryo flush from a Holden dam and a Cooper sire in 2015. Again, we have never had many females, but they have been successful producing herd sires for us.

**MODEL.** Sherlowe Model 270th was purchased at the herd dispersal in 1986. Daughter of Wabash Imager 22F and full of good breeding, she has provided us with a very important family.

**L1 ACHIEVEMENT D FLUSH.** Result of an embryo flush from a Holden dam and a Holden sire in 2005. Again, not high in numbers of females but ticks along quietly and produces some useful herd sires for us.

## TRIBE 3 FAMILIES

**PANSY.** Border Pansy K44 was purchased from the Border Herefords herd of Stan & Hellen Quan in 1994 and is definitely well established in the Ervie herd now. The family goes way back to the Marlow herd. Great maternal family line.

**NARCISSI.** Studdolph Narcissi J19 was purchased at Hereford from Messrs Thorne in 1975. Easy-fleshing and great milkers, they have been one of our main families over the years.

**L1 ACHIEVEMENT A FLUSH.** Result of an embryo flush from a Holden dam and a Holden sire in 2005. Our first embryo flush from Jack Holden and what a line of females it has become. Very maternal and prolific. Possibly the most important family we imported.

## TRIBE 3 FAMILIES (continued)

**NOREEN.** Kilphin Noreen J1 was the last heifer from the herd of Tom & Billy Nelson, and we bought her from them in 1994. Good hardy types. Produce well and work away quietly without fuss.

**PLUM.** This family stems from the purchase of Free Town Plum 76th, an excellent daughter of Free Town Foremost, in 1993. Now an important family in our herd.

**OYSTERGIRL.** Sherlowe Oystergirl 66thth was purchased at their herd dispersal in 1986. Another great breeding family. Never had a lot of these cows in the herd but they often produce a good bull for our annual spring bull sales.

**PANSY.** This was our first Pansy line and stems from the purchase of Havenfield Pansy 19th in 1977. This was a big cow when small cattle were all the rage and is a family I value highly. Solid females.

## TRIBE 4 FAMILIES

**PEACH.** Harrold Peach 16th was purchased in Edinburgh from Messrs Tusting Partners, Bedford in 1972 and has gone on to become our best known and most numerous family. This female line is so strong and has produced foundation females for many herds. When the girls were showing calves, this was always their favourite family.

**L1 ACHIEVEMENT F FLUSH.** Result of an embryo flush from a Holden dam and a Holden sire in 2009. This is another family which has worked quietly and well for us and is increasing in importance.

**L1 ACHIEVEMENT H FLUSH.** Result of an embryo flush from a Holden dam and a Cooper sire in 2009. Produced two especially important herd sires in Ervie L1 Achiever 91149H and Ervie L1 Achiever 91151H. These bulls had huge influence in establishing the strength of breeding we have in the herd today. The females are toppers!

## TRIBE 5 FAMILIES

**TRIBUTE.** This is a great family in our herd and is established from the purchase of Brockloch Tribute 11th in 1994 from Willie Barclay, East Brockloch, Ayrshire. Top bull sales have been our 2019 bull sale topper at £7000.

**SUNSET.** Venture Sunset 456 was purchased in Denmark in 2002 from Axel Johansen. The result of an embryo imported from the US, this was our first taste of Line One breeding and is a hardy and reliable family. We used 2 good stock sires from Sunset 456.

**UNITARIAN.** Aultoun Unitarian 46th was purchased from Graham Stratford, Hampshire, in 1995 and has established a beautiful and productive line of females in our herd. Our 2017 bull sale topper at £6200 was from this family.

**L1 ACHIEVEMENT E FLUSH.** Result of an embryo flush from Beran Bros., Kansas in 2008 using a Cooper dam and a Holden sire. Extremely productive and maternal family.

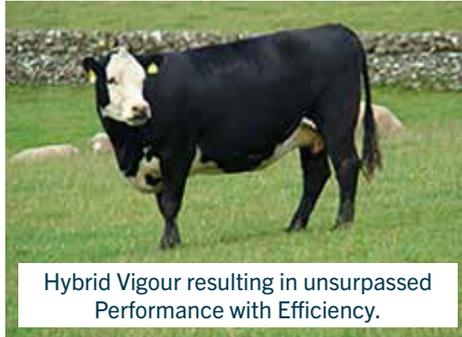

**TOPSY.** From the Wenlock T family and stems from the purchase of a big Bell L 1087 Domino 46R daughter, Wenlock Tabletta in 1993. Another family which has quietly ticked away producing good cattle for us.

**SNOWDROP.** Aultoun Snowdrop 12th was purchased from Graham Stratford in 1994, and the family has stood the test of time with us, producing many attractive females.

**SATINA.** Venture Satina was purchased from Axel Johansen, Denmark in 2003 and the family has produced many good cattle for us since then. US genetics.

## THE F1 BLACK BALDIE: THE ULTIMATE BEEF SUCKLER COW

Hybrid Vigour resulting in unsurpassed Performance with Efficiency.

### What is the F1 Black Baldie?

The F1 Black Baldie is the first cross between the **Hereford & Aberdeen Angus** breeds and is a favoured crossbreed for quality beef production in many countries of the world. *(Many leading geneticists believe the first cross to be the most productive through having the highest level of hybrid vigour.)*

### What is so good about the Black Baldie suckler cow?

- ✓ **Hybrid Vigour** - Increased Performance & Output at no extra cost.
- ✓ **Good Temperament** - Ease of Handling and Low Stress.
- ✓ **Longevity** - Longer breeding life and lower replacement costs.
- ✓ **Efficient** - Good foragers and feed converters eating substantially less silage daily than their cross Holstein counterparts.
- ✓ **Easy calving** - Vigorous calves that get up and suckle quickly.
- ✓ **Easy fleshing** - Progeny finish quickly at good weights. Add to this the improved cull value for cow.
- ✓ **Tight udders and small teats** - Reduced labour suckling new born calves. Cows with the right amount of good quality milk for fast growing calves.
- ✓ **Recognisable** - Calves consistent in type and quality for even sale groups.
- ✓ **The Males** - Growthy, high value steers providing tender & tasty beef and qualifying for many Angus or Hereford premium beef schemes.
- ✓ **Self Replacing** - It's simple to maintain a Black Baldie type herd by continuous criss-crossing each generation with Hereford or Angus sires.
